**Contents**

**INSURANCE COURSE CREDIT:  
2 HOURS RESTORATION  
COURSE NUMBER: 72041**

### **WHAT YOU WILL LEARN**

This course has been specifically designed to explain the different approaches and techniques to scoping, cleaning, and restoring smoke-damaged contents. The purpose is to provide you with a better understanding of the work performed by the mitigation vendor at smoke-damaged work sites. You will learn what techniques and processes a restorer needs to know when responding to smoke-damaged claims. You will learn remediation tips which can help control the cost of a loss if performed in a timely manner. You will also better understand what your insured is going through when they have smoke-damaged contents.
